## PLEASE HELP SECURE THE FUTURE FOR DRU AND ALL THE DOBERMANS IN OUR CARE

The DRU shelter has been the refuge and sanctuary for thousands of Dobermans since it was built over 20 years ago. Young and old, sick and well, none are turned away. We have taken in Dobermans in need from our primary service area of New England and New York/New Jersey, and also from many other areas of the United States; we've even taken in Dobes from places like Egypt, Kuwait, Puerto Rico, and Mexico. We will care for any Doberman in need that can get to us and we will care for them until their new adoptive families can be found.

Ensuring that DRU's mission continues costs money. Fifteen years ago an endowment fund was established to "Secure the Future" for the Dobermans we rescue, care for, and ultimately adopt out. Many members contributed cash and securities to get the fund started. However, with the onset of Covid our major fundraising events had to be canceled – no Open House, no Reunion Picnic – and additionally, the pain of the Covid pandemic also resulted in lower annual donations. But we still had to spend the money to see to all the Dobes in our care. This meant that we were forced to dip deeper into the endowment to fund ongoing operations. With the vaccines now available and the decline in cases, we are hoping that all will soon return to normal. However, we need to build up the endowment again. Therefore, we are beginning a major fundraising effort, and we ask for support from our membership and all lovers of this very special breed.

To encourage donations, two of our long-time members have separately offered to match any donations to the endowment through year end 2021! So, for example, ***If you donate \$100, the double match will mean your \$100 turns into \$300!*** Please help DRU by supporting this incredibly important fundraising drive!

We can also accept securities. Note that donating appreciated securities allows you to take a tax donation equal to the market value at the time of donation, regardless of the original cost. We also ask that you consider including DRU in your estate planning. Questions can be directed to our Executive Director, Michelle Cooper at [mcooper@dru.org](mailto:mcooper@dru.org).

***The DRU Board, the Executive Director, the staff and volunteers, and especially all of the shelter Dobes thank you for your support!!!***

# **Recovering From “The New Normal”**

*DRU soldiers through, but still needs YOU.*

*Written by Julia V. McDonough*

The past eighteen months have been challenging for the entire world, as society has been forced into a “new normal.” New paradigms of what it means to work, to go to school, to socialize and even to own a pet have affected almost everyone, and our shelter is no exception.

During the height of Covid, we were forced to limit volunteer activity at the shelter and had staffing challenges whenever there was a concern about exposure. Veterinarians were famously booked out straight and our excellent vet was no exception, making scheduling even routine procedures an exercise in both logistics and patience. Our adoption process adapted to the new reality as well, as we maintained our high qualification standards for home visits while trying to practice social distancing by making them virtual.

The enforced domestic lifestyle that Covid brought us also created a whole new type of pet owners: those who decided that adopting an animal companion would be a great way to spend all of the time they had now that working from home was the rule. It also caused profound changes in routine for pets who now had 24-7 access to their humans. As life slowly returns to normal those of us in the world of rescue are feeling the effects. Once humans returned to their pre-Covid work habits, their dogs were no longer as easy to maintain. Dogs who were never conditioned to have healthy time away from their people suddenly found themselves alone for nine-hour workdays, dogs who remained in lockdown and unexposed to normal life now had to deal with strangers coming to let them out in the middle of the day, or the noise and chaos of a daycare. For some owners, the stress of returning to full time work and maintaining their dog was simply too much: those dogs ended up being returned to the shelters where they were adopted or became so difficult behaviorally that they ended up looking for a new home. At DRU we have fielded calls from Doberman owners whose dogs have not adapted well to going back into the real world, or who can't adapt to new living arrangements of financially strapped families combining households. While we do our best through education and owner coaching to keep those dogs in their homes, sometimes it just isn't a possibility.

There are stories more tragic than those of inconvenienced dog owners: DRU has seen a higher than normal percentage of older or medically compromised dogs being turned in by people whose physical or financial health has declined to an untenable point, or whose family members passed during the pandemic, leaving the dog without other options. These dogs are true heartbreakers: in addition to losing their familiar people, they lose the home and routine that may have been theirs for a decade.

At the DRU shelter, we continue to do our best to provide these dogs with the best care possible. In addition to the specialized veterinary attention so many of them require, we make sure that each dog in our care has his own team of “Well-Being” people who are charged with keeping him healthy emotionally. The DRU University training program provides structure and behavioral rehabilitation for many of our more challenging residents and assistance to their new families. And our Adoption team spends countless hours in the effort to match dogs to forever homes. As life opens up again, DRU has gradually been able to resume normal operations: we have had many successful adoptions this spring and we have been grateful to have both old and new volunteers return to the shelter. We hope to add basic obedience classes for the general public in our training room and have even gotten the green light to hold what should be an amazing Reunion Picnic. We need your support more than ever to continue DRU's mission, whether it's a monetary donation, an afternoon of volunteering, or a “share” on social media of an adoptable Doberman. While so many things have changed due to the pandemic, one thing always remains the same: our gratitude to those of you who keep us going.

## WILL YOUR COMPANY

## MATCH YOUR DONATION

Many companies support causes that are important to their employees by matching charitable contributions. Find out about your company's matching program by asking your human resource department.

This would be a great time to submit requests for DRU donations!

We would be happy to answer any questions that you, or your employer may have.

**Contact through the DRU hotline**

**(603) 887-1200 or at [mcooper@dru.org](mailto:mcooper@dru.org)**

## CAN YOU DONATE YOUR TIME?

**Without volunteers,  
Doberman Rescue Unlimited  
would not exist.**

Volunteers are needed to keep our Dobermans happy and the shelter looking good! There are dogs that would benefit greatly from some one-on-one attention. The seniors love it when someone sits and loves on them. Come visit and walk a dog, throw a ball, mop a floor, clean a run, scoop some poop, wash windows, fold laundry, feed dogs, wash dishes, take out some trash, landscaping, repair something...the list is endless.

### ***Additional Volunteer Opportunities:***

#### **GRANT RESEARCH**

We need people experienced in grant research, or just interested in helping us apply for grants.

#### **MARKETING**

We are looking for help with social media, and newsletters.

#### **TECH SUPPORT**

Are you tech savvy? We could use help updating the website, and tech related event facilitators.

## Save the date for the ***24<sup>th</sup> Annual Doberman Rescue Unlimited Reunion Picnic***

Middlesex County 4H Fairgrounds  
55 S. Chelmsford Road  
Westford, MA 01886

**Rain or Shine**

**Saturday, September 18, 2021**

**12pm – 3pm**

*Additional information will be disbursed via mail and on our website at [DRU.org](http://DRU.org)*

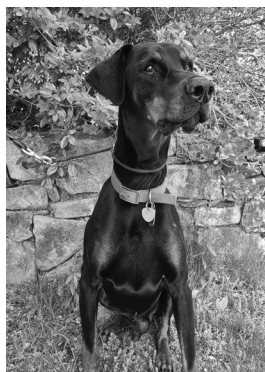

*Enjoy an afternoon with good company and  
conversation with other Doberman people.*

***All dogs must be leashed!***

# AVAILABLE FOR ADOPTION

THE LIST OF AVAILABLE DOGS CHANGES DAILY. PLEASE CHECK OUR WEBSITE  
WWW.DRU.ORG OR CALL THE HOTLINE ABOUT CURRENT DOGS AVAILABLE

**DAX**, age six and a half, is a black and rust boy with natural ears and a docked tail. Dax is very affectionate with his humans and has reportedly been good with older kids and also female dogs. With training and gradual exposure we think he will do fine in most homes that provide him with structure and a quiet spot of his own to retreat to if things are too exciting. Dax is a SSNAP dog and is on medication to control a cardiac arrhythmia and his new adopters will need to plan on regular heart health checkups to keep him healthy and strong.

**SEDONA** is a six year old compact, all natural red girl whose long tail always seems to be wagging when she sees her human friends. Surrendered due to a medical emergency in her family, this lovely Dobe acts like a perpetual puppy: very busy and energetic and definitely requiring an owner who wants to keep up with her! Luckily, Sedona also has a nice "off switch" and can relax when the circumstances require it. Small but mighty, Sedona has shown some ambitious ideas about passing vehicles but has responded well to direction from a calm and assertive handler and now goes on walks without incident. She has shown reactivity to other dogs in the past but will listen to her human if they are clear and

confident. We'd recommend that she be an only dog at this point.

**LUNA** is a beautiful blue girl with natural ears and a docked tail who came to us from an Animal Control facility in CT. During her quarantine exam with us, her heartworm test came back positive, that meant months of quiet time and very little exercise. Luckily for Miss Luna, a foster home was found where she is currently recuperating with lots of TLC from her foster mom and is responding to her heartworm treatment. Once she's recovered completely, Luna can go back to being a typical youngster and will be ready to find her forever home.

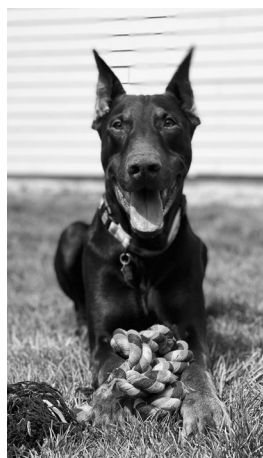

**JOHNNY** is an energetic black-and-rust fellow with natural ears and a frequently-wagging nub who was found wandering with his female friend in a Connecticut city. The ACO estimated him to be about 5 years old, but Johnny has the energy of a youngster! Johnny is definitely one of those "diamonds in the ruff": he may not know a whole lot about being a mannerly house dog yet but he is definitely figuring out that he likes hanging out with people. This boy has a very sincere expression and responds joyfully when he knows he's being praised for something. Johnny's new owner will need to be patient and firm and ready to set up boundaries as they introduce Johnny to the concept of pethood. In return they'll get the love and trust of a Dobe whose hard luck hasn't made him a hard dog. Because of Johnny's mystery background, we can't recommend him for a home with kids. He's expressed a strong dislike for other male dogs, but may be a candidate for a suitable female packmate. Johnny has a very low clotting factor due to his status as a von Willebrand's Affected Doberman, and while we haven't seen any immediate issues we always want our adopters to be informed when it comes to any of the health challenges that unfortunately can affect our beloved breed. Looking for a "fast friend"? Heeeeere's Johnny!

**RAIDAR** Compact, athletic Raider is a very smart and eager-to-please Doberman who thrives with consistent and knowledgeable handling. This little dude's obedience skills are very on point and he has a lot of fun showing off in training. However, Raider is more than his cute face and playful attitude: he is also capable of serious resource guarding and extreme resistance to handling for basic grooming, two issues that are being addressed through atten-

tion by our experienced training and kennel staff. He would be a great project dog for a professional trainer or handler with serious working dog and/or rehab experience.

**FRANK** is a red senior that you would never guess is turning 10 years old this November. He greets you in his room with his favorite green ball, and sings you his songs when he rolls it out the door toward you. Frank's feet aren't so sturdy in his old age, but he insists on games of fetch in the yard and enjoys short walks with his handler. Frank came to us from a home he grew up in alongside children, and then a family member moved in who later

found out they were allergic to Frank. He meets every staff member and volunteer with a big smile and the intention to make a new friend. He enjoys being right by a humans side and asking for them to throw the ball or give him some head scratches. Frank is looking for his forever home to share his love for humans.

# Letters From Adopters

Lexi is enjoying her new home. She loves running in the yard and runs around the house chasing her tennis ball. She loves going to work with Peter and Tanya, all the customers bring her treats and she is a total love bug. She is loved and hugged by everyone throughout the day. After work, Lexi loves to nap on the couch at night surrounded by us and her fluffy blankets. She definitely found a forever home!

Tanya and Peter Hill in NH

Dear DRU,  
Chex is wonderful!!!! He is my best boy. We just came inside from our morning jolly ball session. He gets 2 per day, 1 with each of us, as well as plenty of time outside running around HIS backyard with us. And lots of time to relax on his bed next to me when I'm working. He really is our boy. We do everything together. He has acclimated to a home life perfectly. He has good house manners and listens. Well... Dobie style listening. I can't wait to pull out the sprinkler mat. He's going to love it!!! We haven't seen any kiddie pools in the stores yet or Mark would have purchased one. I can't imagine not having him as part of our family.

Mark and Christine

Here's a picture of Cobra and Cleopatra "chillin" on the front porch. They're enjoying their new home-of which they are definitely in charge. Much-loved and thoroughly enjoyed. Thank you DRU

My little honey Sambuca is sleeping in my lap after playing ball. She loves to cuddle next to my couch when I'm at work. She's been sleeping on the couch during the night too.

Andrea in MA

Oliver and I are sitting on the sofa reading a book. Well, while I'm reading, he's snoring on my lap! Lol He's probably the best dog I've ever had and I've had a lot of them. He's doing wonderful!! He loves us and we love him to death!!

Deb and Mike

I took Ashley home a year ago in May as a senior girl who I first fostered and have now adopted...she loves to be pampered and is treated like the princess that she is. She continues to have a great health and enjoys life. I can't imagine my life without Ashley!

Jeremy

I love my new home. After some fishing time, then I have my warm and cozy bed to settle in to. Thank you for taking me to my forever home Pat and Colleen.  
Love, Drogo

Axel is sooo loved and we could never be happier! It all happened because of you and the Doberman Rescue team and for that, Axel, Mark and Tammy thank you and will never forget who made him our hero to!!!"

Tammy & John

It was nine months ago Ozzie joined our family of DRU alumni Skye and Dozer. Ozzie was surrendered at 1 1/2 years old and lived at the shelter for 5 years. Although he has some challenging behavioral issues and will always be a work in progress, he is a beloved member of our family, nonetheless. Ozzie proved to have excellent house manners and gradually settled into his new routine. Eternally grateful to have a place to call his home, Ozzie expresses his gratitude everyday with the most loving gaze and gentle kiss on my cheek. When he is not training or learning new skills, life outside of the shelter is spent helping me with household chores, patrolling his back yard making sure snakes and rodents stay on the other side of the fence, tracking the underground critters, keeping the skies overhead free of planes and most importantly, engaging in his nightly treasure hunt.

Cathy and Jose
